STAT

NOTE FOR:

25X1

FROM :

:

SUBJECT : PRM-11

1. For a PRM-11 working group session ^{*to be*} ~~to be~~ scheduled early next week, I need a good discussion or issue paper, one or two pages in length, on how the Department of Defense and the Joint Chiefs of Staff regard:

a. The "national-tactical relationship" as it affects current tasking and programming; and

b. the transition of national intelligence entities from peace to war conditions.

2. This paper need not be an official input but should be a fair stab at summarizing DOD views and concerns. Also mention how you see NMIC and CCF playing.

3. Unfortunately I need this by COB 18 March. Thanks for joining the working group!
